Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 2,4-9,13-17, as best understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Edman et al. 4,186,855 in view of Reed et al. 4,449,647.

Edman et al. disclose an auxiliary cover (20) for a pump dispenser for discharging a liquid from a vessel (24) by upward and downward motions of a nozzle head (26), the cover being attached to a cap (25), a lever portion (22), which can be moved horizontally as seen in Figures 1-2 and 5-6 and applicant should note that the lever portion of Edman et al., will inherently move horizontally as the lever moves toward the opening (28) of cover (20), a hollow base portion (29), a cylindrically shaped safety member (36) coaxial with the base portion, a projection (41), a support piece (46). Reed et al. lack a rotation stopper. Reed et al. teach the use of an auxiliary cover (10) having a lever portion (36), a rotation stopper (55).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the rotation stopper of Reed et al. onto the lever portion on Edman et al. as taught by Reed et al. in (col. 3, ll. 37-46), in order to prevent accidental or premature depression of the trigger.

Response to Arguments

3. Applicant's arguments filed 12/19/2005 have been fully considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Woodman 4,862,968, Almouli 4,427,134 disclose other types of auxiliary cover.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frederick C. Nicolas whose telephone number is (571)-
